

Центр академического письма «Импульс»
приглашает принять участие
в серии семинаров
по устной научной коммуникации
с профессором Майкл Броди
из Американского Университета в Вашингтоне
(American University in D.C.)

Dr. Michael Brody is an environmental scientist who since 2012 has been teaching in the Department of Environmental Science at the American University in Washington DC USA. He was a Fulbright Teaching Scholar at the National University of Uzbekistan in Tashkent from late August 2017 to the end of January 2018. He was placed in the Ecology section of the Biology Faculty, where he lectured on climate change and its effects, and on pollution and health. He went to the American University of Central Asia in Bishkek for the summer of 2018. Brody is currently a Fulbright Short Term Specialist at the University of Tyumen, in Russia for about 6 weeks during the summer of 2019. Dr. Brody had a long career in the Federal Government before coming to American University. He started his career in wetlands research and modeling with the US Fish and Wildlife Service. He then had 20+ years of scientific leadership with the US Environmental Protection Agency. He carried out numerous projects in environmental policy & risk assessment, climate change, technology outlooks & impacts, strategic planning and international environmental capacity building. His 20 years of international scientific projects with the EPA took him to 17 countries, with a focus on the former Soviet Union, especially Russia and Ukraine, & Africa. His work in Central Asia began in Kazakhstan in 2011 as a Visiting Professor at the Kazakh National Medical University and then at the Kazakh National Agrarian University. He has published papers on air quality and health in Kazakhstan. He began visiting Uzbekistan in 2014. Dr. Brody has ongoing collaborations with colleagues in Tashkent and in Bishkek in climate change and water policy and air pollution and health. Some of his current interests include studies of policies in Uzbekistan that discourage the adoption of drip irrigation in cotton agriculture. He also consults for the World Bank in Washington DC.

Дата первого семинара: 16.07.2019 г.

Время: 14.00-16.00

Место проведения: ул. Ленина 23 Офис 209

Рабочий язык: английский

Для участия в семинаре **обязательно** отправить заявку на эл. адрес: cawi@utmn.ru

Тема письма: 16.07.19

В заявке указать:

- ФИО
- Должность/Институт
- Эл. почта

The overall scientific context includes:

- Understanding of global, regional and national environmental issues
- Understanding of the inter-disciplinary approach to environmental science

Small group discussions in English of any journal articles, environmental reports, or even articles about environmental issues in mass-media articles that we would read as a group.

Количество семинаров и расписание будет обсуждаться на первой встрече.
